

Colocate at WBX, Connect to the World.

As one of the largest carrier hotels in the USA, the Westin Building Exchange serves as a primary hub for carrier, cloud, and content interconnection.

Through our extensive Fiber Meet-Me Room, WBX affords neutral connectivity to Asian, Canadian, European, and American network service providers and carriers. WBX also provides access to numerous other networks via the Seattle Internet Exchange (SIX) and the Pacific Northwest GigaPoP (PNWGP).

AVAILABILITY

Colocation

- ±73,000 SF retail colocation
- Modular cages (200-10K SF)
- Individual locking cabinets
- Access to copper/fiber MMR

Rooftop Access
