The Westin Building Exchange is one of the leading data center and colocation facilities in the world. As one of the largest carrier hotels in the United States, the Westin Building serves as the primary hub for interconnection, hosting and business deployment in the Pacific Northwest.

Through our extensive fiber and copper Meet-Me rooms, the Westin Building affords neutral connectivity points to Asian, Canadian, European and American network service providers, carriers, and ISPs. It also provides access to numerous other networks via the Seattle Internet Exchange (SIX) and the Pacific Northwest Gigapop (PNWGP).
Availability
Colocation
- ±73,000 SF retail colocation
- Modular cages (200 – 10,000 SF)
- Individual locking cabinets
- Access to copper/fiber MMR

Connectivity
Fiber
- Carrier Neutral Facility with more than 200 carriers and service providers
- Dark Fiber Availability
- Premier Fiber and Copper Meet-Me Rooms
- Multiple fully diverse underground main points of entry (MPOE)

Carriers
- All regional carriers including but not limited to: AT&T, NTT America, Comcast, GTI Corporation, Level 3 Communications, XO Communications, Zayo Group, Integra Telecom, Verizon Business, Global Telecom & Technology, Alaska Communications, World Communications, Wave Broadband, and BCE Nexxia

- AC and DC power available

Cooling
- Five diverse cooling towers
- N+1 redundancy
- 330,000+ gallons make-up water available

Floor Loading
- Typical structural capacity of 150 lbs./SF or 1500 lb. cabinets

Fire Safety
- Pre-action dry-pipe fire suppression system

Seismic
- Built to seismic zone 3 standards
- Seismic retrofit completed in 2007
- Located on million year compact/stable base

Certifications
Compliance
- PCI/SSAE 16 SOC I Compliant

Reliability
UPS Power
- N+1 or 2N power redundancy available
- 24/7 battery monitoring system

Utility Power
- Multiple 13.5 kV feeds
- Diverse Substations
- Multiple transformer vaults – 480V 3 Phase

Generator Backup
- 17 diesel generators, totaling 19.5 MW

Managed Services
- 24x7x365 on site engineering staff
- 24x7x365 remote hands
- Certified technicians

Security
Access
- 2 secure mantrap entries
- All colocation spaces equipped with dual-authentication biometric entries

Colocation Amenities
- 2-hour customer parking (per availability)
- Colocation customer care suite with TV, couches, conference room and kitchen available. (10th floor)
- Colocation customer lounge (23rd Floor)
- On site storage available
